Garden Design Course 2024

Would you like to design your own garden instead of getting a landscape designer involved, but don't even know where to start? If you are a "hobby gardener" who would like to design your own garden, implementing design elements that will make your garden the envy of your neighbours, then this Course is for you! Led and hosted by a seasoned landscape architect with 30 years of experience designing hundreds of private gardens.

This Course will be presented during 4 mornings from 9am to 1pm, in our own garden at

16 Oost Road
Mnandi AH Centurion

Several dates carry the same module numbers, allowing you some flexibility.

The cost is **R4000**, with a R1000 deposit to secure your spot.
Classes are limited to 10 people.

- Learn how to draw your garden plan to scale.
- Develop a design approach based on landscape design elements (we will explain).
- Design a plan for your own garden, bringing in personal elements that will be meaningful to you and your family.
- Decide what plants to use. Indigenous vs. exotic combinations. Planting for bird and other wildlife.
- Work out a basic budget required for your project. Complete a basic plan to implement as your budget allows.
- Present your garden plan to your fellow students for constructive critique and creative input.
- A light lunch and refreshments are included, partly from our own garden!
- Receive discount vouchers for up to **R5500** when buying plants, paving or garden ornaments from our supply partners. (So technically the Course is for free if you take advantage of these!)
- Add **R850** for a one hour landscape consultation at your home once you have completed the Course.
